PARTNERS IN PERFECTION

Epson Ultra Short-throw Interactive Projectors

Compatibility with Epson's ultra short-throw interactive projectors allows you to easily interact with your images, literally at your fingertips with finger-touch and pen interactivity.

Pair your Epson's document camera with an interactive projector for impressive presentations today.

Realistic and Larger Images

Larger Imaging Sensor

Achieve sharp, clear images with amazing quality and detail in any light with the large imaging sensor, which captures more light per pixel. The ELPDC21 automatically detects the native aspect ratio of projectors and selects the correct output resolution to match.

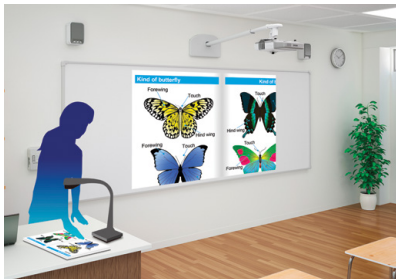

Light
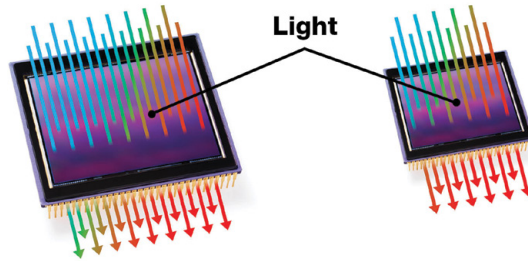

12x Optical and 10x Digital Zoom

Zoom in on every intricate detail and let students get up close and personal with the subject at hand. The ELPDC21 delivers a unique perspective on any subject with up to 12x optical zoom and 10x digital zoom. Bring lessons alive, right before their eyes, without having to pass around a microscope or photograph.

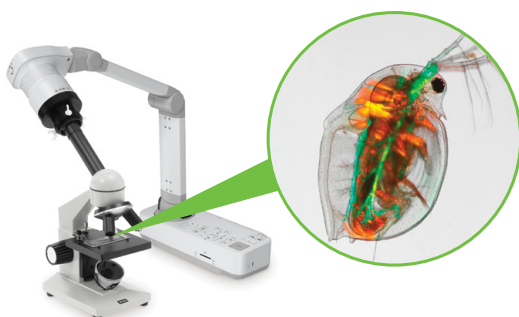

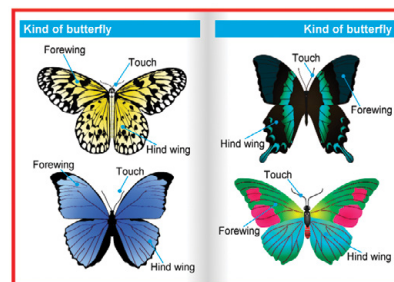

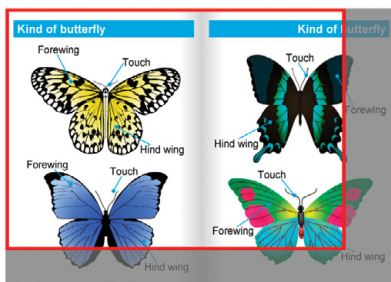

Large Capture Area

Open students' eyes to a whole new world of possibilities. With a large capture area, the ELPDC21 lets you display virtually any object - from a two-page spread in a textbook to 3D objects or content from your smart devices.

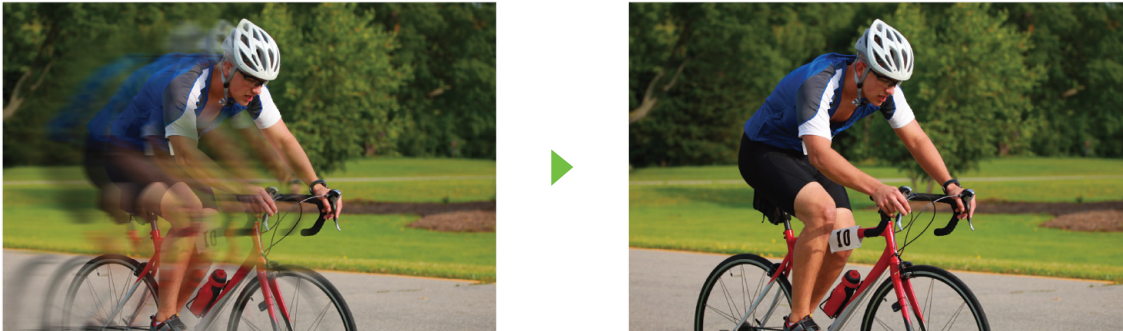

B4

A3

Microscope Support

You can even share organisms under a microscopic via the included microscope adapter. Just fit the adapter to any standard microscope eyepiece and bring the smallest particles to the big screen for all to see.
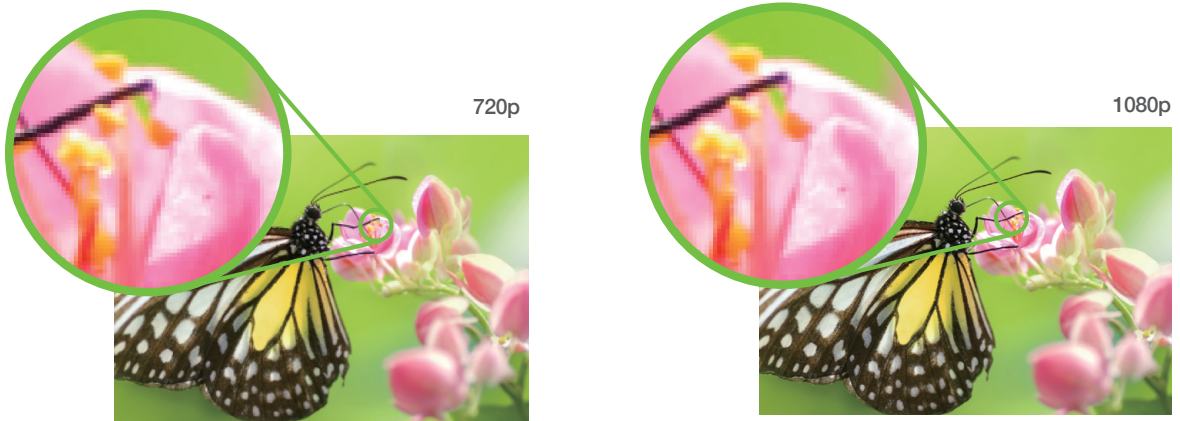

Frame Rate

Watch your presentation come alive with the 30 frames-per-second (fps) video that provides ultra-smooth video performance and minimal delays.

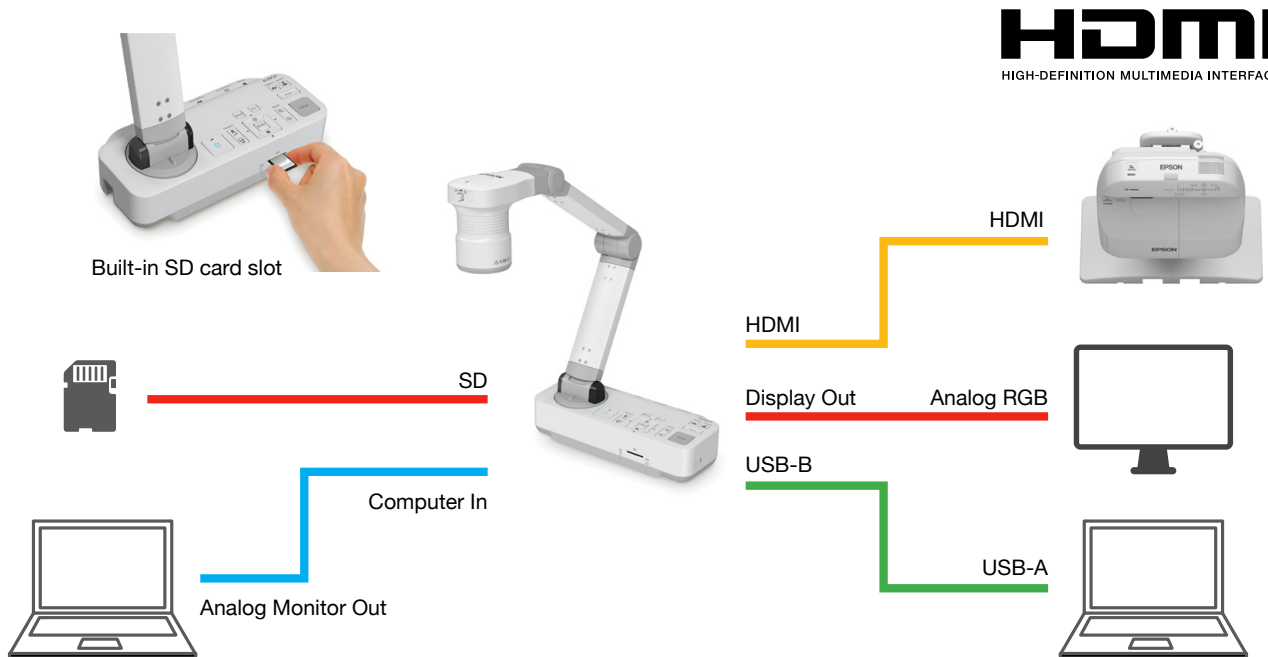

Full HD Image Output

Capture every detail and impress your audiences with brilliant Full HD 1080p resolution.

720p

1080p

Versatile Connectivity

Take learning to the next level with engaging multimedia presentations. Output the captured images to any HDMI or VGA display device, as well as to a PC via the USB connections. Enhance any learning experience with attention-grabbing content. You can even capture images and save them to the SD card or connected PC.

### Epson Easy Interactive Tools (EIT) Software

With PC connectivity, users can use the Epson's Interactive Tool (EIT) to annotate on the live image. It is even easier with the Epson interactive projector, which allows users to annotate using the interactive feature.

Portable and Compact

Save on space with the sleek and compact design that conveniently folds into a ready-to-carry unit.

ELPDC21
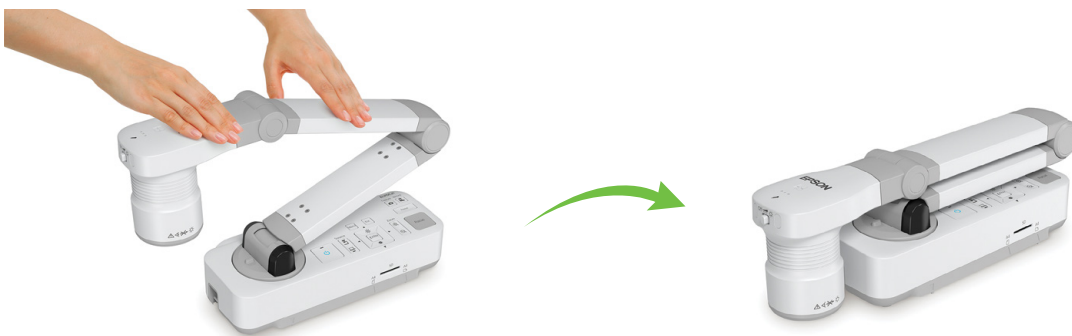

Convenient Features

Split Screen

Split screen capability enables projection of a live video and still image from a SD card. The versatile remote controller works for both document camera and projector.

Using the split screen, viewers can enjoy both still and moving images.

Camera   Picture in SD Card

Record and Share Lessons

Now, it's easier than ever to capture creative lessons and share them later with other students. Use the document camera and built-in microphone to record classroom demonstrations and projects. Then, play them back for students who missed the class.

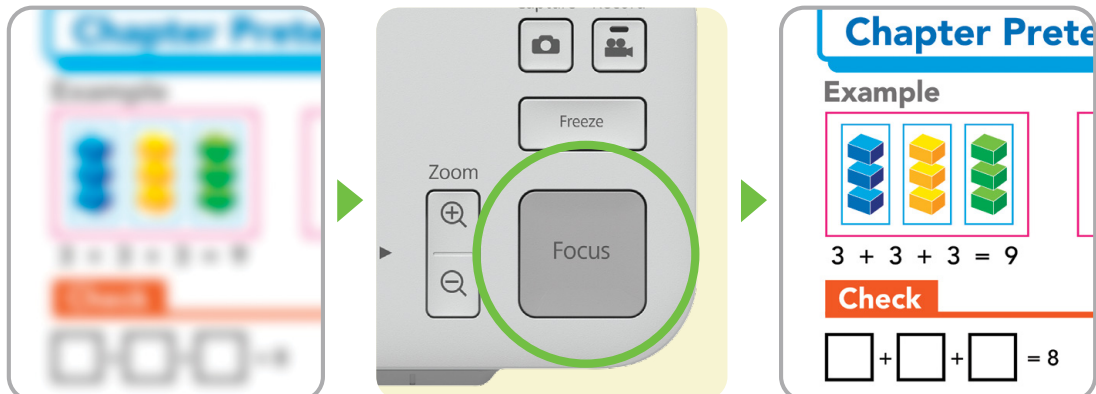

Built-in LED Light

The built-in LED light illuminates objects so that you can project objects clearly even if the surrounding area is dimly lit.

Convenient One-touch Control

Enjoy convenient one-touch button to freeze, focus, capture and video record the images.
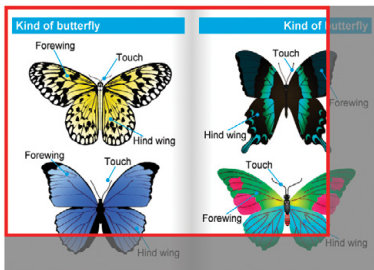

Realistic and Larger Images
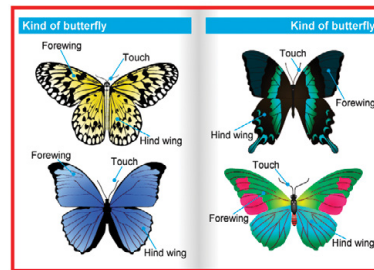

Large Capture Area

Open students' eyes to a whole new world of possibilities. With a large capture area, the ELPDC13 lets you display virtually any object - from a two-page spread in a textbook to 3D objects or content from your smart devices.
